Travelers Take Note

To show you all our favorite parts of the Czech Republic and Austria, this tour includes transfers on multiple occasions. We like to think of it as an opportunity to see more of the country en route to your next ride.

As a country, the Czech Republic is focused on energy efficiency. As a result, air conditioning may not be standard in hotels.

Moisture-wicking clothing or daypacks are recommended, but not required.

To show you the most on your tour and to avoid high-traffic areas there is occasional gravel riding on tour. Gravel surfaces are not as uniform as a typical paved road, however, they are generally very smooth. The bikes on this tour are designed specifically for all the surfaces we encounter on tour.
